

# Resale Certificate Inspector™

**When dealing with a CALIFORNIA sales tax audit, your best defense is getting your Resale Certificates in compliance. Don't wait until you get audited! Reduce your Risk NOW!**

Last year, we processed thousands of California Resale Certificates for companies in many different industries and despite how well our clients thought they managed their resale certificates, **72% were non-compliant.**

**Certificate Audit Status**  
All Clients 2011

■ Complete ■ Incomplete

If you sell wholesale or retail you must maintain and manage your California Resale Certificates

*"I had a client who was undergoing a California sales tax audit and I had them use the **Resale Certificate Inspector** to review their California Resale Certificates to see if they were in compliance.*

*RCI discovered **66% of the Resale Certificates were incomplete or missing**, making the company potentially liable for considerable fines and back taxes.*

*RCI was easy to use and saved my client thousands of dollars. It is a great tool and a great value, and one I will highly recommend it to all my customers who accept California resale certificates!"*

**Graham Hoad – President/CEO  
Sales Tax Resource Group**

*"I thought all my resale certificates were fine, however I decided to try the free analysis and found my largest customer's resale number had been closed and changed. RCI discovered this, fixed the problem and saved me from a huge potential fine."*

**John Osten – President, RnJ Printing**
